## NOBU HOTEL WARSAW

ADAM STEFANOWSKI

Adam Stefanowski is an entrepreneur whose passion has ignited a spirits import business that is admired by celebrities and influential connoisseurs worldwide. Successfully distributing the premiere spirit Deluxe Crystal Vodka in the United States has led to him being a leading force in the industry.

Born in Poland, Stefanowski frequently spends his time traveling to Europe for business, and when abroad, he enjoys staying at Nobu Hotel Warsaw. The extravagant hotel seamlessly blends beautiful experiences in one impeccable location for visitors. Breathtaking art-deco found in the early 20th century historical building combines with a stunning new wing. Warsaw's curated history preservation redefines itself with Nobu Hotel paying tribute to yesteryear all while fulfilling the desires of a modern traveler. With 116-rooms and expansive meeting and event spaces, the alluring hotel is a perfect place for accommodations and the entrepreneur's business meetings.

Stefanowski's Deluxe Crystal Vodka is crafted from the purest water with selected ingredients of wheat and rye cereals. Their combination creates a soft, delicate taste with a subtly perceptible malt. To emphasize the grand character of the vodka, the company distills ten times and then proceeds with five-fold filtration by using coconut shells to activate carbon to efficiently absorb any impurities with micropore molecules. Then crystal and amber are aligned to enhance purity. Then a third stage takes 24k gold and real diamonds to enhance the ultimate drinking experience. The filtration process is repeated twice, and the goal is flawless purity of the vodka. To obtain the desired result, each filtration process must last two years.

Stefanowski and his vision have dominated the field with this brilliant technique that outshines all rivals and illuminates the road on this entrepreneur's successful business journey.

Each one of his brilliant projects uniquely captures the imagination and stirs the heart into a sense of hope and prosperity for the world. The artist has been involved in about 100 collective exhibitions in Poland and abroad. As a creator he focuses on existential problems and references his personal experiences to elaborate the pieces.

Globally renowned for his captivating drawings and groundbreaking painting techniques, the proud artist believes that human existence is complete when people's attitudes towards tradition, culture and religion are appreciated. Bak consistently focuses on large scale virtuoso graphic matter created on medium density fiberboards. Like an enigma, his puzzle-like drawings require concentration and awareness to fully understand them. He incorporates forms that we can easily identify and with those that are less tangible. The overall work relates to current events, mythological themes, spontaneity, and the act of self-expression.

While many of the polychromo installations he co-authored reside in iconic palaces and churches throughout his homeland of Poland, Bak is most looking forward to checking out the brand new Nobu Hotel Sevilla, where modern luxury and historic charm combine to create a unique and unforgettable experience. Situated in the vibrant and colorful Plaza San Francisco, the hotel provides the perfect base to explore the Andalusian capital's intoxicating mix of Mudéjar palaces, baroque churches and winding medieval lanes.
